EXECUTIVE SUMMARY

WORK EXPERIENCE

Software Engineer Intern.
REDPARROT TECHNOLOGY.
Jan 2022 – Present.

My professional responsibilities:

Understanding the design which is given to us and executing it through the code, we test the web applications and find out the functionality, UI issues and bugs, fix them. As a daily responsibility, we perform git pulls and have hands-on experience on working with git repositories, also tested mobile applications.

My accomplishments:

1. Developed 3-4 static web pages.
2. Worked on webpages built with different kinds of javascript frameworks such as SvelteKit and React.
3. Tested nearly 400 issues on mobile applications.
4. Time management and efficiency while working on different kinds of web applications.
